POSITION DESCRIPTION

This position description is a guide and will vary from time to time, and between services and/or units to meet changing service need

Preventing, managing, and escalating matters of clinical risk appropriately.

- Encourages the care team to work in partnership with the client/whānau to link into relevant Māori Health services
- Ensures the client and their whānau are provided with culturally and cognitively appropriate information about: their rights, the range of treatment options available, and the effects and risks associated with these treatment options; seeking and documenting informed consent
- Supports the care team to identify client/whānau educational needs to improve health literacy and empower wellness
- Provides education to clients and whānau effectively by assessing learning readiness, and evaluating existing knowledge and determinants of health that may impact on learning and utilisation of new knowledge
- Advocates on behalf of the client, whānau, and/or team as appropriate
- Identifies barriers related to accessing services and client satisfaction and works with the Northern Operational Manager and interprofessional team to remove these
- Communicates, collaborates, and coordinates care with other health professionals to ensure best outcomes for clients and their whānau
- Uses advanced nursing skills to establish and negotiate meaningful, strategic relationships with colleagues from all relevant services (internal and external Health New Zealand, Te Tai o Poutini West Coast). Relationships are formed based on mutual, client-centred goals. Works proactively to maintain these.
- Facilitates care planning in collaboration with the interprofessional team, including cross-sectorial team members; communicating and coordinating referrals to appropriate services and seeking advice from others as required
- Coordinates regular interprofessional reviews of client care in partnership with the client, their whānau, and the interprofessional team; evaluating the client's care plan to ensure it is achieving the planned, prioritised care management goals
- Promotes that principles of care management include maintaining continuity of plan and provider
- Ensures care is being coordinated in a timely manner to facilitate smooth transition of the client between services and along their care plan
- Promotes restraint minimisation as per Health New Zealand, Te Tai o Poutini West Coast policy and procedure
- Ensures all documented information is entered and compliant with Health New Zealand, Te Tai o Poutini West Coast policy
- Ensures all collected information is stored and access protected in accordance with the Health Information Privacy Code (1994)
- Documents in a professional, accurate, confidential, and timely manner (within 24 hours), and ensures patient/whānau involvement in decision-making is visible
- Ensures all information is documented in the appropriate place (i.e. paper clinical file/electronically) to ensure effective communication and continuity of care. This includes reporting of data as required.
- Maintains and updates risk assessment information as per organisational requirements
- Demonstrates an ability to collaboratively prevent, escalate, and manage adverse events/crises/emergencies, including unexpected client responses and situations that may compromise the safety of the client or others
