Better Health, Better Care, Every Day.

Health New Zealand | Te Whatu Ora is committed to providing high-quality healthcare for all New Zealanders. We are focused on improving access to care, delivering better health outcomes, achieving national health targets, and ensuring the long-term sustainability of our health system.

We know that great healthcare starts with great people. That's why we are committed to building a high-performing, inclusive workplace where our people are supported to grow, contribute, and make a real difference for patients, whānau, and communities across Aotearoa.

About the role

The primary purpose of the role is to:

The Clinical Nurse Specialist (CNS) works across the organisation within a clinical specialty acting in the roles of practitioner, educator, consultant, researcher, leader/change agent and care coordinator/case manager in the pursuit of clinical excellence and improved health outcomes.

Clinical Nurse Specialists are recognized internationally as expert practitioners, having in-depth knowledge of a speciality that results in expanding boundaries of nursing practice and the implementation of evidence-based practice and clinical research. (Austin and Luker, 2005; NACNS, 2009).

Clinical practice is central to the Clinical Nurse Specialist role, however in order to influence and improve nursing practice it is essential the role is underpinned by the competencies as outlined in the job description below. Due to the diversity of the CNS role key accountabilities and key performance indicators will vary according to patient/population and service needs. Therefore, the key performance indicators will be determined by the individual service and will be based on the key accountabilities as outlined in this CNS generic job description.

Key Result Area	Expected Outcomes / Performance Indicators
Excellence in Clinical Practice	Provide expert nursing knowledge in the management of patient care within a defined area of specialty practice, working with the

	patient, family/whanau or other health professionals to provide timely nursing care to optimise outcomes. • Uses advanced health assessment skills in the assessment of patients and critiques own practice to maintain clinical competence • Prescribes advanced evidence-based nursing therapeutics, pharmacological/non-pharmacological interventions, diagnostic measures, equipment, procedures, and treatments to meet the needs of patients, families and groups, in accordance with professional preparation, institutional policies and scope of practice • Undertakes extended interventions as authorised by Nursing Council • Role models expert evidence based clinical practice, is seen as highly effective, progressive and knowledgeable • Guides and supports others in the speciality in their assessment, clinical decision-making, implementation, evaluation and documentation of care. • Provides leadership, role models and guides others in nursing practice that is consistent with the principles of the Treaty of Waitangi • Networks nationally and internationally to identify and implement nursing advances and changes in practice • Identifies opportunities for general health / wellness education e.g. smoking cessation
Leadership	• Takes the leadership role through both direct and indirect patient care delivery • Provides senior nursing leadership for the specialty service and consultation to a broad range of hospital, community and professional groups to achieve positive outcomes for patient or population group • Supports a culture of evaluation and the ongoing quality improvement of nursing practice • Is actively involved in professional activities such as research, scholarship and policy development at both a local and national level • Leads system change to improve health outcomes through evidence based practice • Participates in clinical governance activities
Care Co-ordination/ Case Management	• Collaborates with the patient and multidisciplinary team to plan and implement diagnostic strategies and therapeutic interventions to attain, promote, maintain and/or restore health • Coordinates the care of patients utilising organisational and community resources to enhance delivery of care and optimal patient outcomes • Provides a primary point of contact within the specialty for patients and health professionals • Evaluates results of interventions using accepted outcome criteria, revises the plan of care and initiates appropriate and timely consultation and/or referral with relevant services/agencies when appropriate

	• Establishes collaborative relationships within and across departments, hospitals, primary and secondary health to promote patient safety, continuity of care and clinical excellence • Provides leadership in the interdisciplinary team through the development of collaborative practice or innovative partnerships: this may include patient conferences, multidisciplinary meetings and strategic planning of the service • Is an effective resource and consultant for interdisciplinary clinical staff and disseminates research findings • Leads nursing and interdisciplinary groups in designing and implementing innovative, cost effective patient care and evidence based change • Contributes to the development of interdisciplinary standards of practice and evidence-based guidelines for care •
Education	• Assists in evaluating educational programmes offered, that focus on the area of specialty practice, to ensure content is evidence based and reflective of current thinking • Shares specialist knowledge and skills in formal and informal education activities and ensures that nurses are supported in their development of culturally safe practice. • Disseminates specialty knowledge at both a Local and National/International level • Acts as a resource person for patients and health professionals • Collaborates with nurse educators and CNM to identify staff training needs and to develop an educational plan to address those needs • Collaborates with the PDU and tertiary education providers to provide specialty education • Assists in the orientation and preceptorship of new nurses and student nurses • Provides clinical guidance and mentoring to nursing and allied health colleagues • Assists in the compilation of resource material for educational purposes for patients, families and health professionals
Administration	• Accurately records CNS activities which enable practice trends to be tracked over time and effectiveness of practice to be evaluated • Provides reports of CNS activities with agreed KPIs to the line manager at pre-determined intervals • Participates in organisational committees and/or working parties to achieve service, organisational and Ministry of Health goals and improve patient outcomes. • Influences purchasing and allocation of resources through the use of evidence-based findings and/or by generating new and innovative approaches to achieve best client care and nursing practice.
Research	• Cultivates a climate of clinical inquiry within the service, evaluating the need for improvement or redesign of care

	delivery processes to improve safety, efficiency, reliability and quality • Fosters an interdisciplinary approach to quality improvement, evidence based practice and research • Provides leadership in design, implementation and evaluation of process improvement initiatives • Assesses system barriers and facilitators in order to design programs for effective integration of evidence into practice • Evaluates health outcomes and in response helps to shape nursing practice/service delivery • Demonstrates ability to interpret and implement research findings relevant to the area of specialty practice. • Disseminates appropriate research in an easily interpreted format within teaching sessions, patient information leaflets etc
Professional Development	• Maintains own clinical competence within specialty area • Develops and maintains a professional portfolio utilising NZ Nursing Councils' Standards for advanced nursing practice. • Networks nationally and internationally to maintain current knowledge of trends and developments in specialty area • Attends educational opportunities and conferences relevant to role and scope of practice • In conjunction with DON develops the role to meet professional and organisational needs • Participates in annual performance appraisal

Key Result Area	Expected Outcomes / Performance Indicators
Access and Outcomes	• Supports efforts to improve access to services and achieve better outcomes for the communities we serve. • Uses evidence and insights to identify barriers and opportunities for improvement. • Contributes to inclusive, responsive, and effective service delivery.
Te Tiriti o Waitangi	• Demonstrates a commitment to understanding and applying Te Tiriti o Waitangi in a practical and appropriate way. • Supports initiatives that improve outcomes for Māori and strengthen relationships with Māori partners and stakeholders. • Contributes to an inclusive workplace that values diversity and supports the attraction, development and retention of Māori employees.
Health & safety	• Exercises leadership and due diligence in Health and Safety matters and ensures the successful implementation of Health and Safety strategy and initiatives. • Takes all reasonably practicable steps to eliminate and mitigate risks and hazards in the workplace that could cause harm, placing employee, contractor and others' health, safety, and wellbeing centrally, alongside high-quality patient outcomes. • Leads, champions, and promotes continual improvement in health and wellbeing to create a healthy and safe culture.

Compliance and Risk	• Takes responsibility to ensure appropriate risk reporting, management and mitigation activities are in place. • Ensures compliance with all relevant statutory, safety and regulatory requirements applicable to the Business Unit. • Understands, and operates within, the financial & operational delegations of their role, ensuring peers and team members are also similarly aware.
