Title	Cardiology Day Unit Booking Coordinator
Reports to	Cardiology Administration Team Leader
Location	Christchurch
Department	Cardiology

Better Health, Better Care, Every Day.

Health New Zealand | Te Whatu Ora is committed to providing high-quality healthcare for all New Zealanders. We are focused on improving access to care, delivering better health outcomes, achieving national health targets, and ensuring the long-term sustainability of our health system.

We know that great healthcare starts with great people. That's why we are committed to building a high-performing, inclusive workplace where our people are supported to grow, contribute, and make a real difference for patients, whānau, and communities across Aotearoa.

About the role

The primary purpose of the role is to:

The booking Administrators play a vital role in supporting patient access to healthcare services by coordinating bookings in accordance with Health New Zealand and Ministry of Health (MoH) guidelines. This role contributes directly to the achievement of health targets and operates under the guidance of the Team Leader, Service Manager, and Clinical Director or Triaging Clinician.

Responsibilities include:

- Schedule and manage patient bookings for outpatient and inpatient services, including planned care procedures, in accordance with Health New Zealand and Ministry of Health (MoH) standards and guidelines.
- Collaborate with clinical and administrative teams to ensure patients receive timely access to care and that booking processes align with service delivery goals.
- Maintain accurate records and data entry to support reporting and compliance with health targets.

Most challenging duties typically undertaken, or most complex problems solved:

- **Delivering a quality customer service** – balancing the needs of both patients and clinical teams requires a strong focus on communication, empathy, and responsiveness, especially when managing competing priorities or time-sensitive requests.
- **Coordinating complex bookings** - achieving the right outcomes for patients and clinicians involves the effective use of the Patient Management System and associated clinical systems. This includes planning, scheduling, and communicating appointments while considering clinical urgency, patient availability, and service capacity.
- **Supporting patient-centric booking** - navigating the diverse needs and constraints of patients and clinicians to ensure bookings are timely, appropriate, and aligned with care pathways. This often involves problem-solving and negotiation to find workable solutions.
- **Managing workload and priorities** - balancing daily and weekly booking demands in a dynamic environment, while maintaining accuracy and meeting service delivery timeframes, requires strong organisational skills and adaptability.
